President's Message

The technological age! What a time to be a genealogist!

Many years ago, (1997) Ancestry, along with Family History Center produced a series on Genealogy for PBS. Fortunately I found out about them before the first one viewed. I set my VCR to record each episode. They were something to look forward to when I got home from work. During these raining evenings, I've been reviewing these old tapes. I have gleaned more information, or refreshed my memory on places to search, tangents to pursue! (I also videoed the 2000 series as well!) It's rather funny as they explain computers and their coming importance in genealogy. I believe that Cyndi Howell, from Cyndi's List was quoted as saying something like the computer was invented for the genealogist!. Probably not, but we are one of the largest groups of people to really use the computer to it's maximum! From keeping & organizing our database; reproducing, restoring & recording our family photos; communicating with others all over the world; to reading whole books – one of a kind! – on line! Amazing! I haven't even begun to tap into the tip of the iceberg of genealogical resources.

A tip that I got from one of the episodes that has been hanging with me, is to have one goal written down when you go to a research library. This is true for when we go to an online "library" as well. It's so easy when you walk through those "doors" to get distracted by every little bit, that before you know it, it's time to leave & you didn't even begin to research the one goal that you had! Speaking from experience!

As we start planning our research trips for the spring & summer, have a goal written down that you want to achieve before you start out!
Happy Hunting!

President

Henderson House Museum 1905-2005

The Henderson House, now a museum owned by the City of Tumwater, is located on Deschutes Way in Tumwater, Thurston County, Washington. The house ca 1910's is pictured on the front cover of the quarterly.

It was built in 1905 by the Olympia Manufacturing and Building Company as a house for William Naumann, brew-master at the Olympia Brewing Company¹. The house built for \$1500², was considered modern for its time with features including hot and cold running water, steam radiator heat and electric lights in each room. Electricity to the house was provided by the Olympia Light and Power Company generator facilities located below the Tumwater Falls³. Naumann had purchased the property from Minerva Shaw on August 11, 1903 for \$200⁴.

Subsequent owners of the house had been identified by previous researchers – Jill Kangas, former Henderson House Museum Director; Lanny Weaver, Washington State Archivist and Sarah Ables, a 2004 Evergreen College intern:

- 1905 – 1909 William and Louise Naumann (& family ?)
- 1909 – 1921 John and Catherine Rohrbeck & family
- 1921 – 1928 Edwin and Amelia Jenkins
- 1928 – 1935 Viola and William "Paddy" Sloan
- 1935 – 1939 Bank foreclosed on house and it sat empty.
- 1939 – 1977 Frank and Agnes Henderson & family
- 1977 to present – City of Tumwater

I started volunteering at the museum in 1997. Carla Wulfsberg, the current Henderson House Museum Director, had always wondered if we could find out more about the families who had lived in the house and, even better, find living descendants of each family.

In 2004, Sarah Ables and Carla found and interviewed descendants of the Rohrbeck and Henderson families who still lived in the Tumwater area. Their interviews gave some guidance on finding the other families.

In March, 2005, with a centennial celebration set for October, 2005, Carla asked me as the genealogist volunteer to see if I could find descendants of the Naumanns, Jenkins and Sloans.

Done properly, genealogy research involves working backwards through history from yourself. Tracing the Henderson House's families required working forward from names and the time period that they had owned the house. This was going to be a challenge.

I reviewed data collected by the earlier researchers. I tracked the families through the Polk and Cole City Directories for Olympia and Seattle and census records. Using a number of Ancestry.com >www.ancestry.com< online databases: Washington Death and Birth indexes [and microfilm]; Social Security Death Index; California Death Index;

Wisconsin Birth and Marriage Index; Montana Death Index; I was able to find obituaries in local papers. Finally, I used My Family – people finder, a subscription website ><http://reunite.myfamily.com>< to bring my research up to 2005 and locate phone numbers for people to contact. With the exception of My Family – people finder, all the resources I accessed are available locally at one of the following: the Henderson House Museum, Washington State Archives and Library or Timberland Regional Library.

Using these resources individually and in combination, I was able to find descendants of the remaining three families. A profile emerged for the Naumanns, Jenkins and Sloans, each of which are considered in turn with the Rohrbecks and Hendersons.

Naumann

William (b.1857) and Louise (b.1869) with their daughters Freya (b.1888) and Martha Atamataswinta (b.1889) came to Olympia around 1902⁵. They immigrated from Germany in 1892⁶ and moved to Olympia, possibly from San Francisco, California⁷. William worked as a brew-master at the Olympia Brewing Company. When they sold the house in 1909,⁸ they moved to Georgetown [a community annexed by Seattle in 1910]. He worked as a brewer for the Seattle Brewing and Malting Company from 1910 until it closed with the start of Prohibition in 1916⁹.

Their daughter Freya married Archie Osborne and had a son William Odin Osborne (b.1910)¹⁰. Freya divorced and subsequently married William J.F. Meyer and gave birth to two more children William J.F. Meyer, Jr. (b.1914) and Freya Louise Meyer (b.1916)¹¹. Martha married Guy Quick. The couple had no children.¹²

Both William and Louise died in 1941¹³¹⁴¹⁵. Their daughter Freya had predeceased them in 1919¹⁶ during the flu epidemic. Martha lived in San Deigo, California until her death in 1958¹⁷.

Freya's daughter Freya Louise Meyer was married first to Charles Blazer¹⁸, they had Charlene. Freya Louise divorced and then married Otis Gaskell, giving birth to April¹⁹²⁰. Charlene is married and lives in Oregon; April is married and lives in

Charlene and April with their families attended the centennial celebration.

Rohrbeck

John (b.1877) and Catherine (b.1882) Rohrbeck bought the house from the Naumanns in 1909. They moved in with their children Mildred (b 1906) and Alfred (b. 1909). Harold (b. 1911) was born while the family lived in the house²². Arthur (b. 1923) the youngest was born in Olympia. John was an accountant for the Olympia Brewing Company.²³

John died in 1942²⁴. Catherine married William Barnett sometime before her death in 1961.²⁵²⁶

Mildred married Roy Hotop. They lived in Thurston County. Roy, like his father-in-law, was employed by the Olympia Brewing Company, where he worked in several departments, maintaining advertising for 30 years. Roy died in 1988.²⁷²⁸ Their son James Hotop had died in 1979^{29 30}. Their daughter Evelyn is the owner of the picture of the house that is seen on the front cover of this quarterly.

Alfred married Marian and lived in Thurston County. He was also employed by the Olympia Brewing Company. He died in 1997³¹³². Marian had predeceased him in 1985³³³⁴. Their children Roger and Marilyn live in Washington and Alaska.

Harold married Lucille. They also stayed in Thurston County. Harold continued the family tradition of working for the Olympia Brewery. He died in 1984³⁵³⁶. Their son John H. died in 2002³⁷. Kay, their daughter, now living in Hawaii, attended the centennial celebration with her mother.

Arthur, the youngest son of John and Catherine Rohrbeck, was living in Portland, Oregon, when he died in 2003.³⁸

Jenkins

Edwin (b. 1853) and Amelia (b. 1864) Jenkins were the next occupants of the house from 1921-1928. They came to Olympia from Oregon around 1900 with their children John William (b. 1885), Leona C. (b. 1892) and James E (b. 1899), all of whom were born in Missouri.³⁹

Edwin was a wagon maker⁴⁰. Edwin and Amelia died in 1937 and 1938 respectively.⁴¹

John William married Minnie May Moulton before his parents moved into the house. He was a blacksmith and welder⁴². He died in 1960 and Minnie in 1987⁴³. Their daughter Carolyn remained in the community⁴⁴. She and her sons attended the centennial.

Leona married Fred Munson, who was a druggist in Tumwater, Thurston County and Chehalis, Lewis County⁴⁵. They then moved to Tacoma and later to Vancouver, Washington. Leona died in 1933⁴⁶ and Fred in 1952.⁴⁷⁴⁸ They had a daughter, Virginia.

Sloan

William (b. 1877), better know as "Paddy", and Viola (b. 1881) Sloan bought the house in 1928. Viola and Paddy married in 1913 while living in Billings, Montana. They moved to Olympia in 1923.⁵¹

They were the first owners not to raise a family in the house, but they did rent out rooms. Indeed the Sloan Boarding House was well known between 1931 and 1933 by construction workers for the new Olympia Brewery building⁵². When the Brewery resumed beer production in 1933, with the repeal of Prohibition, William worked as a watchman at the brewery.⁵³

Unfortunately the Sloans fell on hard times and Olympia Federal Savings and Loan foreclosed on their loan in September 1935.⁵⁴ Viola died in 1944⁵⁵, Paddy later moved to California and died there in 1967.⁵⁶

The descendants of the Sloans are from Viola's first marriage to Guy Howard⁵⁷. Edna May Howard (b. 1900) and Carl Howard (b. 1903) were both born in Wisconsin before their mother moved to Montana in 1906. Paddy had immigrated from Ireland in 1907.⁵⁸

Edna married Thomas Wilkerson and had Thomas Alex (b. 1918), William Howard (b. 1920), Laurel and Virginia Lee (b. 1926)⁵⁹. Edna stayed in Montana dying there in 1977⁶⁰. Her daughter Laurel married and is still living in Montana. Unfortunately she couldn't travel for the centennial. But she had left a picture of the Sloans on an earlier visit to the museum.

Henderson

After sitting empty for four years during the Great Depression, James (b. 1885) and Agnes (b. 1905) Henderson bought the house in 1939. James was a telegraph operator for the Northern Pacific Railroad. He also served as an auditor for the state for

fourteen years, retiring four years before his death in 1958.⁶¹ Agnes continued to live in Thurston County until she died in 1996.⁶²

The Henderson children - James, Margaret and Virginia have fond memories of the house, which their family owned until 1977. There were two other children in the family Dashiell (b. 1926) who died around 1931 and Catherine (b.1928) who died and later buried on her 30th birthday.⁶³⁶⁴

James, Margaret and Virginia with their spouses and children attended the Henderson House Museum centennial celebration.

The City of Tumwater purchased the house in 1977. The city restored it to the 1905 layout for its current use as a museum. The museum has rotating displays reflecting life in Tumwater and Thurston County. The long term goal is to furnish the house ca 1905 to 1910.

On May 22, 1978, the Henderson House (1905), as well as the following historic structures: the Crosby House (built 1860), Old Brewhouse (built 1906), Schmidt House "Three Meter" (built 1904) and the Boston Street Bridge (built 1915) were included in the newly designated Tumwater Historic District as listed on the National and State Registers of Historic Places. A marker recognizing this designation is located in a little park just north of the Henderson House Museum.

Tumwater Mayor Ralph Osgood dedicated a new separate historic marker for the Henderson House Museum on October 16, 2005 to celebrate its centennial. The marker tells the complete story of all the families who lived in the house. With the exception of the Sloans, the ceremony was attended by representatives of the descendants from all the families who had called this house – home.

Note: For further information on the house or these families please contact the Henderson House Museum, City of Tumwater Phone: 360-754-4217.

Lesson Learned from Genealogy Field Trip by Dave Purtee

Lessons Learned - Preparation

Develop a list of objectives for what you are going to search

- Questions and objectives – be succinct in your questions
(general question do not work unless you can locate a local historian or expert)
- List of places to search
- Identify people you need or want to visit and alert them of your plans and schedule

Do ALL your homework before you leave, your research time on the road is valuable

- All the on-line searching of the objective and places
- Census work, etc.
- Check websites in the area you are going to search
 - USGenwebNE (counties)
 - Historical Society websites
 - Chamber of Commerce, city, county, state websites

Refine your objectives and places to search

- **Courthouses** (opening & closing hours)
 - Land records
 - Marriage records
 - Vital records (information may be online)
 - Taxing lists, school attendance lists
- **Libraries** (opening/closing times/days)

Lesson Learned from Genealogy Field Trip by Dave Purtee

Lessons Learned - Field Trip

Have a Research Plan

- Written objectives
- Planned schedule
 - Alternate schedule
 - Day or two in reserve to use if needed

Plan your trip so time is used wisely

- Know travel distance and approximate time
- Know hours of operation/days open (ahead of time, if possible)
- Make appointments ahead of schedule, if possible
- Know your time zone

Visiting Courthouses, Libraries, Societies, Museums

- Be courteous and try not to interfere with their work
- Handle the books, papers very carefully
- Try to help with any tasks you need to ask them to do
- Be aware of office procedures
- Try to go to the courthouse early and above all, do not stay late. Allow time for them to close on time (do any copying of records early and not at closing time).
- Always ask for other records

Use each night to plan the next day

- **Carry a laptop computer, with proper hardware equipment for any situation.**
 - Make notes from the day's research
 - Make notes for the next day's research
 - Check last minute times or new leads on-line
- **Check day's findings with the files you have brought with you**

Have a day or two in reserve to exploit new finds and extend searches

- Use your reserve time when appropriate

Interviewing people during the research trip

- Plan ahead and call ahead to make arrangements to visit

Lastly, read or study books on planning field trips for researching family history

- One example of a book is:

Documentation and Organization

by Fran Anderson

Inventory the sources you have, such as old letters, photos, or other documents. This makes it much easier to find things when you start getting more organized. (I started out with some very disorganized family papers and photos in several boxes. After several years, I still haven't gotten everything sorted and documented, but I did get it all inventoried.)

Keep a research log: Document everything! Every time you get a new bit of genealogical information, document the source whether it is a census image, a book, or even a phone conversation with a cousin.

Your research log should include:

- Date of search (or conversation, or whatever)
- Location (such as library)
- Description of source (microfilm, book, etc.)
- Results of search.

When you find information in a book, copy the title page as well as the information itself, and if it is a book not easily available, record its location. (You never know when you might want to go and recheck it.)

If you find information on a website, record the URL and the date as well as the information.

Document negative searches: When you search and don't find anything of use to you, document it! Then you won't go there again to look for the same thing.

Keep a log of all correspondence: File received messages and copies of sent messages (email as well as regular mail).

Numbering systems: There are many different numbering systems in use by genealogists. Some are fairly complex, others simple. Some researchers file by locality or family group, others just number sources as they find them. Some people use notebooks for filing, others use folders and file cabinets, and many others use a combination of both.

Some useful books (available at the library):

Dollarhide, William: "How to Manage a Genealogy Project", 1988

Lackey, Richard S.: "Cite Your Sources; A Manual for Documenting Family Histories and Genealogical Records", 1980

Mills, Elizabeth Shown: "Evidence; Citation & Analysis for the Family Historian", 1997

"Clooz" and various other organizing software can help assign file numbers, as can many genealogy programs that have their own source numbers. Dollarhide's system of numbering is useful to many people, especially for non-computer users.

Use archival materials to store photos and documents to prevent more damage from acid and light. Several companies sell such materials, and most printer paper today is acid free. Use archival quality sheet protectors for notebook storage.

Choose a system that will make it easy to locate a document, store the documents archivally, and go get organized!

Beginners' Latin

Do you have a need to interpret old Latin documents? If so, there is a tutorial from the British National Archives at <http://www.nationalarchives.gov.uk/latin/beginners/>

The introduction states:

This tutorial is a beginners' guide to the Latin used in documents between 1086 and 1733. It is the first online tutorial to help you learn the Latin from this period.

The tutorial covers the period between 1086 and 1733, when Latin was the official language of documents written in England.

Knowing Latin will help you to read documents from this period. After 1733, official documents were written in English.

No previous knowledge of Latin is required.

This tutorial is suitable for everyone who wants to learn. You may

- Be a beginner
- Want to refresh your skills
- Have studied Classical Latin and want to find out about Latin from a different period

All of the grammar is fully explained. No previous knowledge is required.

You can practise by translating sentences taken from real documents held at The National Archives. For example, some are from the Domesday Book, written in 1086. It is the earliest surviving public record.
