Future of the OGS Quarterly

At the most recent Olympia Genealogical Society Board meeting, we discovered that in 2002-03 it cost roughly \$2,000 to produce and distribute our quarterly. Currently, this is more than twice the cost of the society newsletter! In fact the cost to produce the OGS quarterly took about 90% of membership dues!

So the question to our members is simply ... **How valuable is the OGS Quarterly to you?**

If preliminary budget numbers are correct, last year OGS spent about \$2,900 more than it took in. To close the budget gap the OGS Board will be looking at ALL budget alternatives. Since the quarterly is our biggest ticket item., it gets looked at first. One option may be to eliminate, or reduce the number of quarterlies which we produce. Some societies ONLY distribute their newsletters or quarterly material over the internet. This would reduce costs, but only half of our members have e-mail.

Other societies have either cut back or simply eliminated quarterlies completely. A quick survey of the state genealogical societies shows that only 9 still have quarterlies. Of interest is that many of these societies do not have monthly newsletters. Within the state, only 14 societies have newsletters, and 7 of the 14 are bi-monthly publications.

To keep the quarterly as it is would most likely require an increase in the dues. OGS last increased dues in 2000 to its current rate of \$15 for individuals and \$18 for a family. A similar survey of genealogical societies showed that the average dues were \$17 and \$21. However, if you take only those 4 societies which produce BOTH a monthly newsletter and a quarterly, the average dues would be increased to \$20.50 and \$25.50, respectively.

Finally, to throw in another variable, the Olympia Timberland Library has asked OGS to help add about 600 books to its collection. This is exciting since it is the first time for a substantial addition to the genealogical collection since 1991! But, it is also a daunting challenge which would require about \$30,000. So, if you had to spend \$2,000 from OGS what would you do - *1) continue printing the quarterly for another year ~r 2) buy new books for the library?*

There are no painless solutions to our budget problems. While increased dues or reduced production of the quarterly are only options, it is likely that future issues of this magazine will be delayed until a solution is agreed upon. The OGS Board will be working hard to identify its core activities, and find ways to fund these first. So your ideas, comments about the future of OGS, and general support will be greatly appreciated over the coming months.

How valuable is the OGS Quarterly to you?

Area Research Resources

Heritage Quest Research Library

900 Main Street, Suite 5

Sumner, WA 98390

Phone: 253-863-1806 Web site address: <http://www.hqrl.com/>

Heritage Quest Research Library is located in Sumner, WA, just a few miles beyond Puyallup. For a brief time the library was affiliated with Heritage Quest in Utah and has retained that name, but it is currently a nonprofit member-owned research facility. The staff and management are all volunteers.

The core of the collection is the private library of Leland and Steven Meltzler of Orting, WA. The range of materials is extensive, including books, microfilm, and microfiche. The census microfilm selection is particularly good. I looked at my first census records here. A detailed listing of census microfilm is currently being added to their online catalog.

Their book catalog is on-line. Here's a sampling of their subject index:

Adoption, African American, American West, Biographies, Census Books, Census films, City Directories, Family histories, Foreign, General, Immigration, Maps and Atlases, Migration, Military, Native American, New England, States, Surnames, Vital Records.

The library has enough variety and depth of information that I make it my first stop whenever I start a new research project.

The best way to use this collection is to go there, but they are happy to do research for people, or provide copies of book pages on request. Check their web site or call them for details about these services.

Heritage Quest Library also has a bookstore. Books may be purchased at the library or by mail. Those of you who attended last spring's seminar got acquainted with their "traveling" bookstore.

They are open on Wednesdays from 9:00 AM to 9:00 PM. On all the other days of the week they are open from 11:00 AM to 4:00 PM (Holidays excepted). They caution you to call before visiting on a weekend. Once in a while they are unable to find a volunteer for the weekend spots.

There is a \$4.00 a day use charge at the library, or you can become a member of the organization for \$30.00 a year (\$35.00 for a family). As a member you have free use of the library and receive a bi-monthly newsletter.

The Picture of the Nun is worth a thousand words

By Jewell Lorenz Dunn

When my aunt got done with her book on the Gowans¹, our Irish family, she jokingly said that it was my turn to do the German side. Since I had many memories of going on trips with her to my great aunts house and pouring over old photos I decided to take the challenge.

It started over 10 years ago when I took a trip through the Redwoods to a Gowan Family picnic in Boonville, California. I met a 2nd cousin, Jim Austin who had lived with our great-grandmother. His mother had died young and he had lived with her and his two brothers had lived with their aunts. After the picnic my aunt, my husband and myself were invited to Jim's house out in Willies, California to view family photos which he had inherited from our great-grandmother Elizabeth Holtzhammer Gowan

There were very few photos that came from that side of the family. It was always assumed that Elizabeth's family had disowned her since she married an Irish Protestant 19 years older than herself. The story would unfold to show a much different beginning.

Jim had only about 12 photos from an old scrapbook of Elizabeth's. Amongst them was a photo of a nun. On the back it read "Sister Engelbert Camp, niece of Peter Holtzhammer". It sparked my interest. In gold foil writing under the handwriting was the name of the photographer in Bellevue, IA. I decided this was the only real good clue to find where the Holtzhammer's originated in Germany.

I first got on line to find out the address of the Catholic Church in Bellevue, IA. Next I took a trip down to the Catholic Bookstore in Lacey to find out about Nuns. The lady that ran the bookstore was very helpful. She told me that there were many different order of nuns and we would be able to use the shape of her habit, rosary, pleats in the dress and the knots in her waist cord to figure it out. After many books and several trips we figured out she was a Franciscan Nun.

I wrote the catholic church in Bellevue, IA and they had no record of Sister Engelbert Camp. They suggested that I write to the Archdiocese to find out the information that I needed. I went down to the Family History Library and looked at a microfiche that had the Archdiocese of Wisconsin² and surrounding areas. I found out that they also had an archive in La Cross, Wisconsin so I wrote them. Lo and behold, back in the mail I got an answer:

Dear Ms. Dunn,

Sister Engelbert Kamp is the person you are researching. Despite other dis-in you information, (sic.) I am sure that the differences are only due to memory lapses. Time does things like that to all of us.

I hope the information enclosed will be of help to you.

Sincerely,

Sister Janita Kunding, FSPA³

Attached was a 2 page autobiography written by Sister Engelbert Camp of why she joined the sisterhood, an obituary⁴ and one page of personal information⁵. The personal information stated that she was born in Saukville, WI and was the oldest of seven children. It went on to name her parents Anthony Kamp and Margaret Holzhammer who emigrated from Nackenheim, Germany. It also said that her parents were some of the first settlers of Bellevue, Iowa. It stated that her mother died in 1911⁶ from cancer and was 65 years old.

The Family History Library has the parish records on microfilm for Nackenheim⁷ and I have traced the family clear back to 1648 from one old photo. I did find Margaret (Margaretha) Holtzhammer as being born in 1845 in Nackenheim, the daughter of Jacob Holtzhammer who was Peter's brother.

The Library of Congress currently is running an exhibit called "American Treasures of the Library of Congress." It's worth your time to visit it on line at <http://www.loc.gov/exhibits/treasures/> Thomas Jefferson's personal library was the seed from which the Library of Congress grew. This following recipe is from his personal papers at the Library. You can take a look at the original document at the above url if you like.

The Library of Congress has a number of exhibits available for on-line viewing. The list is at <http://www.loc.gov/exhibits/> The current exhibit of the most interest to our region of the U.S. is "Rivers, Edens, Empires: Lewis & Clark and the Revealing of America"

Thomas Jefferson's Vanilla Ice Cream

- 2. bottles of good cream.
- 6. yolks of eggs.
- 1/2 lb. sugar

Mix the yolks & sugar put the cream on a fire in a casserole, first putting in a stick of Vanilla. When near boiling take it off & pour it gently into the mixture of eggs & Sugar.

Stir it well.

Put it on the fire again stirring it thoroughly with a spoon to prevent it's sticking to the casserole. When near boiling take it off and strain it thro' a towel.

Put it in the Sabottiere then set it in ice an hour before it is to be served, put into the ice a handful of salt. Put ice all around the Sabottiere, i.e. a layer of ice, a layer of salt for three layers. Put salt on the coverlid of the Sabotiere & cover the whole with ice. Leave it still half a quarter of an hour. Then turn the Sabottiere in the ice 10 minutes. Open it to loosen with a spatula the ice from the inner sides of the Sabotiere.

Shut it & replace it in the ice. Open it from time to time to detach the ice from the sides. When well taken (prise) stir it well with the Spatula and put it in moulds, justling it well down on the knee.

Then put the mould into the same bucket of ice. Leave it there to the moment of serving it. To withdraw it, immerse the mould in warm water, turning it well till it will come out & turn it into a plate.
